

BOBBIN RACKS

BOBBINS OR CONE HOLDER

With 8 pegs and 8 pigtail eyes screws as guides. Use with warping boards or vertical warping mills.

6361-1000 \$187.00

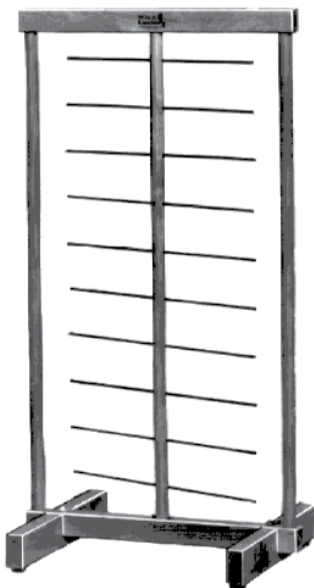

BOBBIN RACK

This bobbin rack can hold fifty 4" - diameter bobbins (or tubes) or thirty 8" - diameter cones. Each thread is guided by a pig tail eye which makes the threading easier. There is an additional row of pig tail eyes so that all bobbins of all sections can be either unwound at the end or unrolled. The bobbin rack can be folded for storage. During warping, it must be open to an angle which will give the rack stability and uniform tension on the threads.

6362-9900 \$673.00

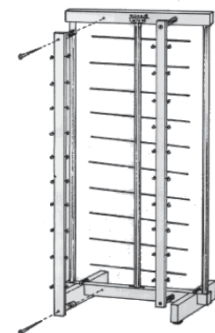

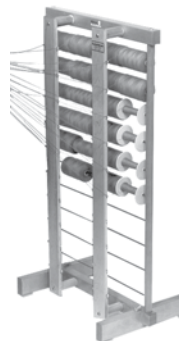

Dimension closed = 57.5" x 28" (wide) x 6"
Dimension open at 180° = 57.5" x 55" (wide) x 6"

BOBBIN STAND

Can hold forty 4" (102 mm) spools. Built like a frame: 21" x 37" (53 cm x 94 cm) with two removable supports. The pins are fixed to a central post that can be turned out when removing bobbins.

6362-1000 \$231.00

THREAD GUIDE

Needed when warping with yarn on tubes, this thread guide prevents the yarn from slipping off the end of the bobbin by always pulling from the center. It has 2 thread guides, each having 40 thread eyes. **6362-2000 \$127.00**

BOBBIN RACK WITH THREAD GUIDE INSTALLED: 6362-3000 \$341.00

- Thread Guide with pigtail screw instead of eyescrew **6362-2001 \$212.00**
- Bobbin Rack with thread guide install with pigtail screw **6362-3001 \$418.00**
- Pigtail screw **6362-3002 \$3.00 each**
